# IT Outsourcing Services

Want your application to be developed by professionals?

Want your own offshore development team?

We provide high quality software development services

[www.erbisccloud.com](http://www.erbisccloud.com)

# What we offer

Agile software development services provided by specialists from development center in Ukraine:

- ❖ **Rich Internet Applications development from scratch including all needed project activities**
  - requirements definition and project estimation
  - architecture and design
  - system implementation
  - quality assurance, load testing, deployment and acceptance

# What we're best at

## ❖ Cloud-oriented Rich Internet Applications development

We're developing *Erbis Interactive Platform* – rapid application development framework designed for cloud-based software

**So, If you want your own cloud application – we're the best choice to develop it!**

*Erbis Interactive Platform* is successfully used by our clients and inside our own projects

## ❖ Standard Web applications development

Each developer in our team has at least 5 years experience in web development for USA and Europe clients

# Communication features

- ❖ All our team members **speak English** and have good communication skills
- ❖ All our team members are **directly available** to our clients via Skype, which allows tight collaboration leading to project success
- ❖ Our company thoroughly follows **agile software development** approach which is proven successful set of software development methods
- ❖ Each project can have dedicated person which is available during **client's time zone working time** for the quickest response to change requests

# Why Ukraine

- ❖ Technology development in Ukraine is **booming**
- ❖ A large pool of **highly educated, tech-savvy and vigorous talents** available
- ❖ **Strong** engineering educational system
- ❖ Clients in the US and Europe have the advantage of a close cultural alignment with their Eastern European vendors
- ❖ Maintaining **low attrition rates**: 9% annual attrition in Eastern European companies, versus 32% average annual attrition in a typical Indian company

# About the Company

- ❖ **Erbis Cloud Services LLP** was founded in March 2012
- ❖ **Erbis** received its **first large client** in **May 2012** and successfully sells development services to them on day-to-day basis
- ❖ **Erbis team** consists of **experts** in the software industry, especially in cloud computing, Java enterprise development and outsourcing
- ❖ The company has **head office in Bristol, UK** and **development center in Ukraine**
